Accidents, fires, thefts — so many of the tragedies that occur at worship centers can be avoided with a few simple precautions.

The Self-Inspection Safety Checklist is designed to help you prevent or reduce property, liability, theft, workers' compensation and vehicle losses.

We suggest that you make copies of this booklet and use it to conduct safety and health inspections. We have organized the checklist to correspond with areas of concern — kitchens, furnace rooms, outside areas, etc. — to make it especially easy to use as you walk through your facility.

An important, and often neglected, part of self-inspection is making sure there's consistent improvement in areas that need attention. Along with the checklist, we would suggest you keep a calendar that notes the dates you do your inspections and includes a timetable for improvements.

Many worship centers also form a Risk Management Committee to help monitor problem and improvement areas. A regularly scheduled review and report on progress to your church board helps lend authenticity and authority to your efforts.

The checklist is not a certified manual that will guarantee full compliance with federal, state or local regulations. We suggest you use it as one element of your total risk management program to help make your facility a safer, more secure environment for your employees, volunteers and entire congregation.

Church Mutual Insurance Company, S.I. (a stock insurer)¹ customers may order or download additional copies of this checklist at no cost through www.churchmutual.com. Click "Safety Resources." Church Mutual® also has self-inspection checklists for educational facilities, camps and conference centers and senior living communities.

Risk Management Program:

Do you have an accident prevention policy or mission statement?

Are there written performance or accountability standards and objectives for managers and supervisors to:

- Reduce injuries and illnesses?
- Enhance workplace health and safety?

Have you established compliance activities and programs?

Is there a designated agency safety coordinator?

Do you have any health and safety committees?

Have you established written safety rules and practices?

Do you offer health and safety training and education?

Do you conduct health and safety inspections/surveys?

Do you practice loss prevention and control techniques?

Have you established health and safety promotion and awareness programs?

Have you established accident investigation and reporting procedures?

Do you have a procedure for workers' compensation claims management?

Do you offer early return to work programs?

Do you have emergency response procedures, including notification of authorities, parents and church officials?

Satisfactory Needs Attention Not Applicable

Action to be taken

	Satisfactory	Needs Attention	Not Applicable	Action to be taken
Do you have an accident prevention policy or mission statement?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are there written performance or accountability standards and objectives for managers and supervisors to:				_____
• Reduce injuries and illnesses?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
• Enhance workplace health and safety?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Have you established compliance activities and programs?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is there a designated agency safety coordinator?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Do you have any health and safety committees?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____

Have you established health and safety promotion and awareness programs?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Have you established accident investigation and reporting procedures?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Do you have a procedure for workers' compensation claims management?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Do you offer early return to work programs?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Do you have emergency response procedures, including notification of authorities, parents and church officials?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____

Safety Tip

Mark areas that "Need Attention" throughout this checklist and establish a program to upgrade these concerns.

Completed by: _____ Date: _____

Completed by: _____ Date: _____

Completed by: _____ Date: _____

Buildings and Grounds:

	Satisfactory	Needs Attention	Not Applicable	Action to be taken
Are roofs inspected annually?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are repairs performed promptly to prevent building deterioration?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are stained glass windows covered with a shatterproof material to prevent damage?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are walkways kept clear of loose gravel and other foreign materials?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are there any tripping hazards on the sidewalk, lawn or parking lot?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are there potholes in the driveways or parking lot?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are parking lot traffic signs in good condition and positioned for easy viewing?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are there parking blocks in the parking lot? (They are a major cause of trip and fall injuries and should be removed.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are driveway and parking lot chain barriers equipped with reflectors for visibility at night?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is the parking lot adequately marked and lighted?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is there exterior dusk-to-dawn lighting on all sides of the building?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are all exterior basement window wells covered with a substantial covering or grate that will hold at least 500 pounds?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is there a wheelchair-accessible ramp, and is it inspected frequently?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____

Maintenance Tip

Make it a policy to clean gutters and downspouts of leaves and debris at least once a year.

Are sidewalks and steps free of raised cracks or chips?

Are handrails securely anchored?

Are fences in good repair?

Are trees maintained and located so as not to allow access to upper floor windows or roofs?

Is there a separate shed to store paint, gasoline and other flammables?

Are lightning protection systems in place?

On older systems, do wires run directly into the ground?

Cold Weather Concerns:

Is snow removed promptly from entryways, sidewalks and parking lots?

Are ice and other slick spots treated as soon as possible?

Is snow and ice removed immediately from above doorways and walkways?

Do you have a plan for removing heavy snow or ice loads from roofs to prevent collapse?

Do downspouts direct water over walkways where it can freeze and create a slip-and-fall-hazard?

Satisfactory Needs Attention Not Applicable

Grid of radio buttons for Satisfactory, Needs Attention, and Not Applicable.

Action to be taken

Playground Equipment:

Do surfaces around playground equipment have at least 12 inches of wood chips, mulch, sand or pea gravel, or are mats made of safety-tested rubber or rubber-like materials?

Does protective surfacing extend at least 6 feet in all directions from play equipment? For swings, surfacing should extend twice the height of the suspending bar in back and front.

Are play structures that are more than 30 inches high spaced at least 9 feet apart?

Is all equipment securely anchored?

Is there dangerous hardware, such as open "S" hooks or protruding bolt ends?

Do openings in guardrails or between ladder rungs measure less than 3.5 inches or more than 9 inches?

Are there sharp points or edges in equipment?

Are there tripping hazards such as exposed concrete footings, tree stumps and rocks?

Do all elevated surfaces such as platforms and ramps, have guardrails to prevent falls?

Are playgrounds checked regularly to see that equipment and surfacing are in good condition?

	Satisfactory	Needs Attention	Not Applicable	Action to be taken

Vehicles:

Do you have a written policy banning the use of cell phones and other mobile devices while operating motor vehicles?

Owned:

Is the use of owned vehicles restricted to official business or activities?

Do buses and vans comply with state requirements for lights, equipment and color?

Do drivers perform a pre-trip and post-trip inspection documenting vehicle condition, any mechanical problems and odometer reading before and after trips?

Are vehicles routinely inspected by a competent mechanic?

Does the inspection include chassis, all lights, body, exhaust system, brakes, tires, steering and interior?

Are written repair and maintenance records kept for each vehicle?

Are drivers instructed that under no circumstances should the keys be kept in any vehicle when left unattended?

Are periodic bus evacuation drills conducted?

Are the driver and all passengers required to wear seat belts? (Buses are excluded.)

Nonowned:

Are all staff members, employees and volunteers who use their vehicle for church or school business informed that their liability and physical damage coverage is primary coverage?

Do individuals who use their vehicle for church or school business provide the Risk Manager or Safety Committee with proof of insurance with adequate liability limits?

If someone's vehicle does not appear to be reliable, it should not be used for church or school business or activities.

Are there established guidelines for minimum age limits for those using their vehicle for church or school business? (We recommend a minimum age of 21.)

	Satisfactory	Needs Attention	Not Applicable	Action to be taken

Fire Protection and Prevention:

	Satisfactory	Needs Attention	Not Applicable	Action to be taken
Do you have a fire prevention plan?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are fire doors in good operating condition and unobstructed, including their counterweights?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are all fire extinguishers checked and tagged annually by a qualified servicing contractor?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are all fire extinguishers checked monthly by staff?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are all fire extinguishers properly mounted on a wall in a conspicuous location?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are specifically hazardous areas such as the furnace/boiler room (Type-ABC) or kitchen (Type-K) equipped with a proper fire extinguisher in accordance with National Fire Protection Association standards?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is each floor level (including balconies) equipped with a proper fire extinguisher (Type-ABC)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are fire extinguishers placed so the maximum travel distance does not exceed 75 feet?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are employees periodically instructed in the use of extinguishers and fire protection procedures?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Do you have a fire alarm system?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
If so, is the fire alarm system tested at least annually?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are all owned buildings which are occupied as sleeping quarters equipped with early-warning smoke detectors?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are all smoke detectors hardwired into the electrical system and equipped with battery backup?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are automatic sprinkler system water control valves, air and water pressure levels checked weekly or periodically as required?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is good housekeeping maintained in the furnace or boiler room?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is good housekeeping maintained in storage areas?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are hardwired carbon monoxide detectors provided for buildings equipped with fossil fuel heat sources and hot water heaters?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____

Electrical and Grounding:

	Satisfactory	Needs Attention	Not Applicable	Action to be taken
Are electrical outlets in nurseries and preschool age classrooms equipped with spring-loaded or twist-type safety faceplates to prevent children inserting objects into the outlet? (Plastic plugs are not recommended.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are electrical outlets located near water equipped with ground fault circuit interrupter (GFCI) type receptacles?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are portable electrical tools and equipment grounded or of the double insulated type?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are electrical appliances such as vacuum cleaners, polishers and vending machines grounded?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are any electrical cords frayed, cracked or dried out?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are properly grounded receptacles placed where machinery or tools are used?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are refrigerators, freezers, air conditioners and electrical water coolers grounded?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Do extension cords being used have a grounding conductor?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are power strips or bar-type adapters used to increase the number of receptacles in a wall outlet? (T-type multi-adapters are not acceptable.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are all unused openings (including conduit knockouts) in electrical enclosures and fittings closed with appropriate covers, plugs or plates?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are electrical enclosures such as switches, receptacles and junction boxes provided with tight-fitting covers or plates?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Do you use the proper size fuse for each circuit in your fuse box?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are circuits identified on the fuse box cover?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
When electrical equipment or lines are to be serviced, maintained or adjusted, are necessary switches opened, locked out and tagged whenever possible?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____

Kitchen:

	Satisfactory	Needs Attention	Not Applicable	Action to be taken
Is there an easy exit from the kitchen to the outside of the building?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is the kitchen exit located away from the potential source of a fire?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is the kitchen area, including appliances, walls, floors, etc., free of grease accumulation?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are overhead fluorescent and incandescent lights in food preparation areas protected to prevent the possibility of glass particles contaminating food should a light explode or break?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is the kitchen fire extinguisher mounted on a wall near an outside exit?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is the fire extinguisher a Type-K?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are proper waste containers used for waste food accumulation?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are waste containers emptied immediately when filled?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is cooking equipment installed on a non-combustible floor surface with adequate clearance from combustible materials?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
If frequent cooking takes place, are exhaust hoods equipped with removable filters and are explosion-proof lights installed above the cooking equipment?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are the hood, filters and exhaust duct cleaned on a regular basis?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Does the frequency or type of cooking suggest the installation of an automatic fire suppression system in the hood and duct system?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is your hood fire suppression system inspected and date tagged at least annually by a contractor certified for such inspections?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are kitchen gas range burners maintained so they immediately ignite when the burners are turned on?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are refrigeration motors, cooling coils and compressors free of combustible materials and cleaned regularly?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is a mop conveniently located to quickly clean up spills?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Are hot pads and mitts readily available for handling pots and pans?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____
Is your kitchen area equipped with heat detectors?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	_____

Public Areas:

Are rugs, carpets and floor tiles periodically checked for tears, rips or chipping that could cause tripping?

Are rugs, carpets and floor tiles promptly repaired?

Are "walk-off" mats used at all entrances to collect grit, water, ice and snow?

Are "walk-off" mats cleaned frequently?

Are "Caution Wet Floor" signs used when maintaining floors or after cleaning up a spill?

Is good housekeeping maintained and are all floor obstructions and tripping hazards removed?

Are extension, telephone or sound equipment cords on the floor or steps where they can create trip-and-fall hazards?

Are emergency phone numbers posted by all telephones?

Do glass doors or partitions have designs etched or applied to them in order to alert people to their presence?

Are nursery and preschool areas situated so that infants, toddlers and small children can be swiftly evacuated?

Are poisonous substances stored away from areas where children congregate?

Machinery and Equipment:

Are heating and air conditioning systems inspected at least annually by a qualified contractor?

Are boilers and hot water heaters equipped with a pressure and temperature relief valve?

Are lawn mowers and all gasoline-powered equipment stored in a detached storage building?

Is limited storage of flammable and combustible materials in accordance with NFPA Standard 30 or local ordinances?

Are ladders maintained and in good condition at all times?

If a ladder is being used to gain access to a roof or upper platform, does it extend at least 3 feet above the point of support?

Are metal ladders prohibited from use in areas containing electrical current?

Are ladders equipped with nonslip safety feet?

Are ladders stored indoors or otherwise protected from the elements?

Are all power and hand tools kept in good condition with regular maintenance?

Are power tools with hazardous moving parts equipped with proper guarding?

Is the organ turned off when not in use so that it cannot overheat and potentially cause a fire?

Are drive sheaves, belts, pulleys and other moving parts of heating, cooling or other equipment properly guarded to prevent contact?

Is all lawn care equipment equipped with proper protective guarding and appropriate warning notices?

Is American National Standards Institute (ANSI) approved eyewear and hearing protection provided for staff members and volunteers involved in maintenance and lawn care?

Preventing Accidents and Tragedies, One Step at a Time.

This booklet covers several areas of concern and can at first seem very challenging. However, the sooner you start on a routine inspection program, the more likely your facilities and congregation will become safer and more secure.

The checklist is based on safety studies and actual claims submitted to Church Mutual and can help you eliminate hazards that might lead to costly property losses, personal injuries and legal actions.

Please visit our website at www.churchmutual.com to see our full range of safety materials. It's just another service you can expect from the company that specializes in protecting worship centers and other religious organizations.

PROTECTING
THE GREATER
GOOD®
